"The scenery of the Nile, southward from Shendy, is again changed. The tropical rains, which fall occasionally at Abou Hammed and scantily at Berber, are here periodical, and there is no longer the same striking contrast between desert and garden land. The plains, extending inward from the river, are evered with a growth of bushes and compare grass.

What a blessing it is for a rogue to have some "standing" in society! We have seen a man sen-tenced to three years imprisonment for stealing a half barrel of sugar. True it was a second offence, and was law. But then he were a ragged coat, and his face wore a rougher hue than the lily fingered gentry around him? Nobody, of course. "Shut up the loafer; who cares for him?" is the language and feeling of all "respectable people." We have seen care-worn faces confined to prison for an equal length of time, for offences scarcely greater, and where we knew that want had driven to madness and desperation. Society, especially "respectable peo-ple," (that means rich, now-adays, you know,) said, "served 'um right," and piety and philanthropy A short time since, a man stole some \$90,000 from

the Suffolk Bank in Boston—stole it genteelly; and he was called a "defaulter." He was not a thief; oh! no, not he. He was a defaulting bank officer.
Able counsel aided him in his defence. He was tried amidst a group of sympathising friends, and hundreds prayed, as does the mockery of an old indict-ment: "May the good Lord send you a safe deliv-erance." He wore fine clothes. Then he had done up the thing on a magnificent scale, too. This is why he had friends around him, and was not called a thief. This gigantic default made his sin white as snow in the eyes of his friends. Well, this man-Mr. Brewer was his name-was

the other day in Boston, found guilty, and sentenced to one day's solitary confinement, and three years in the State Prison! The humane judge expressed much sympathy and regret at being obliged to sentence him so long. If he had made his whole property safe, he gets \$30,000 a year for his services to the State. Whether he has done this or not, he will be respected when he comes out, and perhaps be pardoned before his time is out.

Suppose a man had stolen a horse with a hundred dollars: would be have been sentenced to less than three years? The probability is, he would have received six years, if he was a poor man, and was not able to wear a fine coat. What encouragement there is for honesty among the children of ignorance and want, when they see men who get good salaries stealing their 100,000 at a time. and receiving a less sentence than those who steal \$100 to save themselves from starvation? But there is aristocracy of thieves, as well as other professions. Providence Mirror.

Notwithstanding this is one of the warmest climates in the world, the people eat meat whenever they can get it, and greatly prefer it to vegetable food. The sailors and cameldrivers, whose principal food is dourra, are, notwithstanding a certain quality of endurance, as weak as children, when compared with an ablebodied European; and they universally attribute this weakness to their diet. This is a fact for lank Sylvester Graham to explain. My experience coincides with that of the Ethiopians, and I ascribe no small share of my personal health and strength, which the violent alternations of heat and cold have not shaken in the least, to the fact of my having fared sumptiously every day. If I had adopted a diet of rice and water, or bran and turnips, I should not be here to give

trying circumstances.

And so it is now, in an humble sense, by mere human hopes. Men may preach and the world will listen, but profit comes by example. A parent, for instance, inculcates gentleness to his children by many sound precepts, but they see him treat his beast in a rude and angry manner, and, in consequence, his instructions are worse than lost, for they are neither heeded or respected. His example, as a for his children, without one word of command .-Men are just like children in this respect, and imitate a good example, while mere words, no matter how good and true, without such example, will pass into one ear and out at the other.

Smith, Esq., the orator of the day, delivered a discourse marked by thought and reflection-aiming more at argumentative solidity than is usual upon such occasions, pointing out in the future of our country evils to be guarded against, as well as blessings to be anticipated; and urging domestic education and high moral training as the only certain means of averting from the heads of our posterity those evils which heretofore have been looked upon as unavoidably connected with the progress of society in all countries, when they have become old and thickly settled. The glance at the revolutionary history of our country, with which the oration opened, and the allusion to the recent death of Mr. Clay, with which it closed, were beautiful and in good taste, especially the latter.

The Amateur Brass Band had kindly consented to be present, and enlivened the day with several pieces of music, which were very well executed, considering the short time the band has been in existence.

About eleven o'clock the Vanderbilt left the wharf next above Market street, upon an excursion down the river. She must have had some four hundred people aboard, if not more. the last therty years, with little intermission; that democratic policy had proven itself to be the policy of wisdom and truth, as the country had prospered Fillmore, the modern apostle of whiggery, no effort had been made to change in any material point the established policy of the country; that since the old issues had been surrendered, the whigs were dependent for their existence and organization as a party mainly on a settled opposition to the measures of the democratic party, and upon the popularity which their name obtained in the days of the revolution.—
He adverted to the clamors which were raised and echoed from Maine to Louisiana against the tariff act of '46; that it had been predicted there would be turned out of employment by scores, and numbers of them would either starve or go begging for bread through the land. He then asked if these preprophets, and if instead of the midnight gloom which it was said would overshadow the country, it had not gone on prospering and growing in every element of nationality in a manner which had astonished the civilized world-if, so far from falling short (of the exigencies of government) the revenue had not increased, ur der the new tariff, to such a degree as to put to silence the voice of calumny itself. Gov. Reid next gave his views with regard to matters of State policy, remarking that when first nominated for Governor he had called the attention of the people of his State to Free Suffrage, and pressed upon their consideration the propriety of amending the Constitution so as to extend the right of voting for Senators to all those who are entitled to vote for a Commoner, and that he did so from a conviction of the injustice of the freehold qualification, without waiting to inquire if a majority of the peo-ple were in favor of the measure. He stated that there were two modes of amending the Constitution, prescribed by that instrument itself: one by legislaive enactment, the other by calling a Convention of the people; that he was in favor of the former mode. for the reason that the work had already commenced and would be almost sure to be consummated if permitted to go on; that as the Legislature had to meet any way, the measure could be acted upon with very little additional expense, and the trouble of calling a Convention could be dispensed with; that the vote of the people would be taken, according to this mode, in the same manner as in the Conventional. He denied the truth of the doctrine that a bare majority of the people have the right to call a Convention to amend the Constitution, as it would have the effect to destroy the compromises of that instrument which had been made for wise purposes; showed that the Constitution itself required a vote of two-thirds of the Legislature to authorize the calling of a Convention, and observed that Mr. Kerr's bare majority doctrine savoured very strongly of Dorrism; contended that if the conventional mode were attempted, Free Sugrage would be defeated, as a proposition to change the basis of representation, or some other equally offensive, would, in all probability, be couoled with it, and render it so objectionable that the cople would vote against it. He was of the opinion.

He did not complain of the expenditures of government, as all administrations would, by reason of dishonest officers and other causes, expend more than was absolutely necessary, but thought that Mr. Kerr ought to be exceedingly modest in speaking of Van Buren and Polk's administrations as being extravagant. in the face of one of a more recent date. and particularly if he remembered anything of the Galphin claim. He thought, really, that it was very aston-ishing an amendment should have been made to the tariff act of '46 in a clandestine manner, and all the shrewd politicians of the country failing to make the ing been nominated for Governor, to cut the Gordian knot and bring to light the long-hidden deceit. He showed that, instead of any trick being played off on the country, the bill containing the clause to which Mr. Kerr referred had been regularly passed by Congress and signed by the President. pleased that his opponent had come out in favor of the tariff act of '42, and asked if Mr. Kerr would make an issue on that subject. (Mr. Kerr replied that he would not at this time, although he believed in the doctrine.) The Governor stated next that he was in favor of applying the proceeds of the public lands to defray the expenses of government; that was the doctrine of his party as laid down in their platforms, and as he believed the true policy; and ne was glad to be able to make an issue with Mr. Kerr on this point, as it was the only one he had succeeded in making on national polities. He was as much opposed to the Homestead Bill as his oppo-nent; the bill was passed by the votes of both parties, and it would be very easy, by way of retort. for him to say that those democrats who voted for the measure were corrupted by the whigs, but his selfrespect forbade it. It was an easy matter to deal in vituperation, to denounce and villify. But to make a speech well supported by reason, argument, and facts. as quite a different thing and somewhat more difficult. In reply to a complaint put up by Mr. Kerr that he had not avowed himself the advocate of Free Suffrage while a member of the Legislature, he said that it was allowable for men to grow wiser and see the necessity for improvement as they grew older; that it would be as reasonable to charge a man with insincerity and humbuggery who talked of building a new house after having lived in his old one for twenty years, as to impute any sinister motives to him wishing to amend the Constitution for the reason assigned. In conclusion, he thanked the people for the liberal support heretofore given him, and assured them if elected Governor again, he would endeavor to discharge his duties not as a democrat, but as a North Carolinian, and would know no man as a whig or democrat.

Gov. Reid is modest and unassuming, and abors under the disadvantage of being deficient in fluency of elocution and grace of diction; but these deficiencies are in a great degree supplied by much native shrewdness, together with good information and great point in argument. Mr. Kerr is ostentatious in his deportment, florid in style, and vague in his mode of argumentation; but at the same time possesses much ingenuity, or rather plausibility, and occasionally quite eloquent. SUBSTITUTION OF ROSIN FOR SPERM OIL ON MA-CHINERY .- The running of machinery is attended with immense expense for oil for purposes of lubrication. The railways in New England alone consume annually nearly a million of dollars worth of oil. Add to this the annual expense of oil in running machinery in cotton and woollen mills, tanneries, saw-mills, flouring mills, and a thousand other occupations, and we have a very considerable itemof expense. The Philadelphia Ledger sees by a report of a committee appointed by the agents of the Lowell Mills, Mass, to test the relative merits of rosin and sperm oil, that on looms and other machinery of heavy bearings, one-half less power is required with a mixture of rosin with its bulk of pure sperm oil, than with sperm alone. and that its st stitution will effect an annual saving of three-eighths of the quantity of sperm oil required in the Lowell

On the Death of Mr. Clay, delivered in the United States Senate, 30th June, 1852.

Mr. President: Again has an impressive warning come to teach us that in the midst of life we are in death. The ordinary labors of this Hall are suspended, and its contentions hushed, before the power of Rising and Setting Sun, a single gas National Salute of 35 grants. ded. and its contentions hushed, before the power of Him who says to the storm of human passions, as he said of old in the waves of Galilee, Peace, be still.—

The lessons of his Providence, severe as they may be, often become merciful dispensations, like that which is now spreading sorrow through the land, and which is reminding us that we have higher duties to fulfil, and graver responsibilities to encounter, than those that meet us here, when we lay our hands upon His holy word, and invoke his holy name, promising to be faithful to that Constitution which he gave us in holy word, and invoke his holy name, promising to be faithful to that Constitution which he gave us in His mercy, and will withdraw only in the hour of our blindness and disobedience, and of his own

Another great man has fallen in our land, ripe indeed in years and in honors, but never dearer to the American people than when called from the the atre of his services and renown to that final bar where the lofty and the lowly must all meet at last.

I do not rise upon this mournful occasion to inthulge in the language of panegyric. My regard for the memory of the dead, and for the obligations of the living would equally rebuke such a course.— The severity of truth is at once our proper duty, and our best consolation. Born during the Revolutionary struggle, our deceased associate was one of the few remaining public men who connect the present generation with the actors in the trying scenes of that eventful period, and whose names and deeds will soon be known only in the history of their coun-

try. He was another illustration, and a noble one, too of the glorious equality of our institutions, which freely offer all their rewards to all who justly seek them, for he was the architect of his own fortune having made his way in life by self-exertion; and he was an early adventurer in the great forest of the west, then a world of primitive vegetation, but now the abode of intelligence and religion, of prosperity and civilization.

But he possessed that intellectual superiority which overcomes surrounding obstacles, and which local seclusion cannot long withhold from general knowledge and appreciation. It is almost half a century since he passed through Chili othe, then the seat of Government of Ohio. where I was a memher of the Legislature, on his way to take his place in this very body, which is now listening to this re-miniscence, and to a feeble tribute of regard from one, who then saw him for the first time, but who can never forget the impression he produced by the charms of his conversation, the frankness of his manner, and the high qualities with which he was en-

Since then he has belonged to his country, and taken a part, and a promiffent part, both in peace and war, in all the great questions affecting her interests and her honor; and though it has been often my fortune to differ from him, yet I believe he was ciples of Democracy, eulogizing the nominees of the as pure a patriot as ever participated in the councils of a nation-anxious for the public good, and seeking to attain it, during all the vicisitudes of a long and active life. That he exercised a powerful influence within the sphere of his action. through the whole country, indeed we all feel and know; and we know, too, the eminent endowments which gave him

Frank and fearless in the expression of his opinions, and in the performance of his duties, with rare powers of eloquence, which never failed to rivet the attention of his auditory, and which always commanded admiration, even when they did not carry conviction; prompt in decision, and firm in action, and with a vigorous intellect, trained in the contests of a stirring life, and strengthened by enlarged experience and observation, joined withal to an ardent love of country and to great purity of purpose: these were the elements of his power and success. And we dwell upon them with mournful gratification now when we shall soon follow him to the cold and silent tomb, where we shall commit earth to earth. ashes to ashes, dust to dust, with the blessed conviction of the truth of that divine revelation which teaches us that there is life and hope beyond the narrow house where we shall leave him alone to the

of his countrymen for long ages to come. Yes, they will be cherished and freshly remembered when these marble columns that surround us-so often the witnesses of his triumph, but in a few brief hours, when his mortal frame, despoiled of the imhours, when his mortal frame, despoiled of the im-mortal spirit, shall rest under this dome for the last

nounce decay and desolation.
I was often with him during his last illness, when the world and the things of the world were fast fading away before him. He knew that the silver cord wa almost loosened, and that the golden bowl was breaking at the fountain, but he was resigned to the will of Providence, feeling that He who gave has the right to take away in his own good time and manner. After his duty to his Creator and his anxiety for his family, his first care was for his country and his first wish for the preservation and perpetu ation of the Constitution and the Union, dear to him in the hour or death as they had ever been in the vigor of life. Of that Constitution and Union, whose defence in the last and greatest crisis of their peril had called forth all his energies, and had stimulated those memorable and positive forget, and which, no he who witnessed can never forget, and which, no doubt, hastened the final catastrophe, a nation now deplores with a sincerity and unanimity not less honorable to themselves than to the memory of the honorable to themselves than to the memory of the force of Gov. David S. Reid, and the platform laid down by the state Convention, and pledge ourselves to secure ted those memorable and powerful exertions. which

And when we shall enter that narrow valley, through which he has passed before us, and which leads to the judgment seat of God, may we be able to say, through faith in his Son. our Saviour, and in the beautiful language of the hymn of the dying christian-dying but ever-living and triumphant:

"The world receeds, it disappears! Heaven opens on my eyes; my cars

They are hardy and keep well till apring. For table use the Redtop is our favorite,—the Norfolk, will however yield, more. New ground, it is generally conceided, is best adapted to the growth of turnips, probably because of the abundant supply of potash it finds therein; the best crop we ever grew was upon an old pasture, which had been used as such for the space of 12 years. The soil was a deep sandy loam, and had at the time a pretty fair sward of grass upon it which after broadcasting over it a liberal dressing of manure we ploughed in fully 8 inches in depth, harrowed and rolled, then applied a lighter dressing of wall rotted barn and stable manure, then ploughed it in 4 inches deep, harrowed, and cross-harrowed, rolled, sowed the seed, top-dressed with a mixture of 10 bushels of ashes, 1 of plaster and 2 of salt per acre, harrowed the seed in lightly with a light one horse harrow, and completed the work by rolling. When the plants first came up we sprinkled them over with fish oil, each morning, early, until they got into the rough leaf; strewed a bushel of plaster and 2 bushels of salt per strewed a bushel of plaster and 2 bushels of salt per morning, early, until they got into the rough leaf; strewed a bushel of plaster and 2 hushels of salt per acre, over them when they got into the rough leaf.—When they had bottled, as the phrase, is and the roots had got to be about the size of a walnut, we ran the cultivator through them, with the double purpose of working and thinning them. In a week or 10 days, we worked them with the hoe, thinning them out, so as to stand from 8 to 10 inches, and in about the same as to stand from 5 to 10 inches, and in about the same length of time, gave them a fina! working with the hoe, taking good care to eradicate the weeds and grass, and stir the ground well, without covering the roots. The variety was the red-top; time of sowing 25th of July—product large; turnips among the sweetest and best flavored we ever recollect to have tasted.

WHIG OPPNION OF SCOTT'S LETTER OF ACCEPTANCE.

The N. York Evening Mirror, referring to Scott's letter of acceptance, justly remarks that " Scott save too much—promises too much. His letter is not only intended as a special platform, but it outlines the
future legislation of Congress—a course of questionable policy even in a 'President's message.' If Gen.
Scott had simply said: 'I accept the nomination
with the platform, both of which meet my cordial
approbation,' his reply would have been quite as
eatisfactory, and a good deal more effective."

A New York hatter gave away, It is said. on Monday last, 20,000 palm leaf fans, worth some \$500. Each fan however, had announcements of his business pasted on it. A novel and ingenious method of advertising certainly, but not half as effias they have ever proved true to our government.

The delegates from each district were then requested to enroll their names, and the following were present:

We are authorised to announce JOHN D. MOORE a candidate for the office of Sheriff of New Hanover counly, at the ensuing August election.

I have heard of some reports that are in circu cited Act.

In testimony whereof, David S. Reid, Governor of the candidates for the Sheriffalty of your county. I have not been able to learn the precise words which have been, or are used in reference to some remarks I made two years age respecting the qualifications of Mr. Alderman to discharge the duties of the office of Sheriff. Whatever remarks I may have made, they were made in private conversation, and I never expected they would be brought before the public as charges against him. I am aware that reports never loose have made, they were made in private conversation, and I never expected they would be brought before the public as charges against him. I am aware that reports never loose anything by being often repeated, but generally increase four-fold what actually was said at the time when spoken.

In opposition to all reports new in circulation, I can say, that I believe Mr. ALDHRMAN well qualified to discharge the duties of the office should be be elected. He has been acting for me as Deputy Sheriff for six years, and during the whole of that time, he has ever been prompt and attentive; and has discharged the duties of the effect honestly and faithfully.

REVIEW OF THE WILMINGTON MARKET. FOR THE WEEK ENDING JULY 8, 1852.

REMARKS.—At the time we closed our report last week, a ure, been realized. On Tuesday last the Cape Fear river had risen some six feet, which rise it is thought will enable some forty or more rafts of timber, which we understand is very much wanted, to reach the market in a few days, and probably bring some from above the locks. The river is at this time in good boating order, so far as water is ne-cossery to that purpose. We can, however, as we stated last Thursday, look for but little produce at present, in consequence of the very busy season amongst the farmers, in

and we believe they will be found in the main hearly, it all agains, accurate.

P. S. Since penning the above remarks, we learn that the river at Fayetteville rose to about 16 feet water, up to noon yesterday, but that it was then falling rapidly. We regret to learn that one of the locks on the river above Fayetteville gave way a day or two since, which, perhaps, is the scanes of the rapid rise.

FRANKLIN PIERCE.

Mr. Clay.

In pursuance of official notice, a public meeting o the citizens of Wilmington was held on Thursday night last, in the Masonic Hall, to adopt measures for paying a suitable tribute of respect to the mem ory of the great departed, W. C. Howard, Esq., Magistrate of Police, presiding, and J. J. Lippitt, Esq., secretary.

Appropriate resolutions, expressive of the feelings of the meeting, were offered by R. H. Cowan, Esq., and adopted unanimously, and a committee appointed to make arrangements for some public manifestation. The committee will report the programme of proceedings through the papers. It is understood that a procession will be formed, business suspended, and other suitable and proper demonstrations made. George Davis, Esq., we believe, will deliver the eulogy, and Wm. C. Howard, Esq., act as Chief Marshal. Thursday, the 15th inst., has been designated as the day.

Of course, our statement is unofficial, and some variation may be made in the order of arrangements, but we think they will be found substantially correct as given.

Chaste and feeling addresses were made by J. G. Wright, G. J. McRee, Robert Strange, Jr., and R. H. Cowan, Esqs., and the meeting adjourned.

Honors to Mr. Clay. The papers are filled with notices of the death of Mr. Clay, and the honors paid to his memory by Congress, and the country at large. On the 30th.

Their Calculation.

Greely and Seward count largely upon this State They repudiate the platform as an unauthorized and impertinent interpolation on the Whig creed, and yet expect that Southern Whige will unite with them. The New York Tribune of the 29th ult., has an article as follows:

THE BLAZING OF THE WATCHFIRES .- The noming tion of Scott and Graham has been received throughout the broad extent of our country with a burst almost universal enthusiasm. It has restored to the Whig ranks not merely harmony but confidence.— Throughout the great Heart of the Union, one mighty cheer breaks from the Whig array as the nomination is received. From the Connecticut to the Missouri, every Free State will be strongly contested, and nearly all with success. Our advices from Outo are more sanguine than even our hopes. We shall lose, by the Hunker Platform, a few of the Twenty-five Thousand Whigs who were alienated by the nomination of Taylor in '48, but thousands of them will disregard the unauthorized and impertiment interpolations on the Whig creed therein at-tempted, and, voting for the Man of their choice. return to the side of their old associates. Having seen that we who voted for Gen. Taylor did not therein betray the cause of Free Soil, but more effi-ciently served it, they will act with us this time in support of the candidate they then preferred and whose election they still deem desirable.

The article then goes on to show the calculations made at the East, North and West, and then turns to the South in the following language:

Looking South, there is no doubt as to Delaware, and the Whigs of Maryland, North Carolina and Kentucky are united on the Nominees, and speak with entire confidence of the result. Virginia, too, despite the preference of Mr. Fillmore cherished by many of her Whigs, will poll a larger vote for Gen. Scott than she ever yet has done for any Whig can-

This is the Seward calculation, based, no doubt, upon the tone of some of the Whig papers of this State. The first extract we have made, shows the kind of entertainment to which the Whigs of Mary-land, North Carolina and Kentucky are to be invi-"upon Witch Mistr Gim Smithers repeated the Wurds. think it more than possible that the Tribune's informants, who "speak with entire confidence in the result," may be somewhat mistaken.

Mr. CLAY ON POLITICS.—A correspondent of the New York Herald says.
Gov. Jones informs me that Mr. Clay had many

conversations with him, but he communicated nothing relating to the present political contest of a nature which he thinks it important to make public at present. He was favorable to Mr. Fillmore; but he was also for the country and the Compromise, and cared for nothing further.

PRIVATE MANUSCRIPTS OF MR. CLAY.—It is stated. PRIVATE MANUSCRIPTS OF MR. CLAY.—It is stated in the Philadelphia Inquirer, that Mr. Clay, upon his retirement from State Department, at the close of John Quincy Adam's administration, confided to Gen. Jesus all the original manuscripts and rough drafts which he had written whilst Secretary of State. The manuscripts are very voluminous, filling a large trunk and a box. Their publication will be looked for with great interest. Gen. Jesus was Mr. Clay's second in his duel with Randelph and, although politically conspiced to each other, the warnest personal files.

RISE OF LAKE ERIE .- The Ashtabula (Ohio) Telegraph says that Lake Erie is full three feet higher than last year, overflowing the flats in the harbor. Fifteen years, ago it stood exactly on the same level as now, and, according to observation and tradition, the period of fifteen years appears to be attended by high water, with strict regularity.

A SECOND CROMWELL -The Board of Assistants met last night, but brief was its session. There was harely a quorum present, when, pending some resction, the tall member from the Fourth District mo an adjournment, which motion was negatived: whereupon, the stalwart member gathered up his locked his desk, and exclaiming, somewhat style of Cromwell when he broke up the long Parliament, "I'll put a stop to this nonsense, d d d soon!" walked out, and could not be induced by the urgent solicitations of the courteous Funk, the Sergeant-at-Arms, to return. The unquorumed Assistants had nothing to do but to adjourn and go home.

ADJOURNMENT OF THE MEXICAN CONGRESS -NEW DRLEANS, June 23 .- The Mexican Congress has ad ourned without making a provision for the financial wants of the government. The affairs of the State are terrible disorder in every department.

The Norfolk Herald of Wedneday says: It gives us pleasure to learn that Commander Petti grew has been acquitted of the charges against him, which have been the subject of inquiry for some time hefore the court-martial now sitting on board the Pennsylvania.

THE ARCTIC REGIONS .- The British Nautical Stan dard announces the intention of the Hudson's Bay Com-pany to continue, and if possible complete, the discoveries in the Arctic regions. Sir John Rae will be imme-diately dispatched to the Northern coasts of America on a voyage of exploration. He will proceed by way of Chesterfield Inlet to Cape Nicolai, Sir James Rose's furtherest in 1831; thence to survey as far north as Cape Bird, Sir James Ross's furthest in 1850—thus to complete the northwest passage. Dr. Rae will also search various other portions of those inhospitable shores to set at rest the conflicting statements with regard to them, and give to the world fresh knowledge of the country. But a paramount object with Dr Rae will be the searchfor Sir. John Franklin. We have already expressed our opinion that such an object will be fruitless, yet there may be ground for bope that the long lost navigator is still alive. At all events great credit cannot but be given to the Hudson's Bay Company for their enterprising conduct on behalf of science

Though Keziah talked a great deal, she performed very little. As she brought her receipt-book with her, Mrs. Gray and Betsey soon ascertained that instead of looking to her for directions, their better way was to look in the book. "It is not unlikely, for he has often told me that this was his native place. His name is Abel Jones."
"I was satisfied in my own mind," said Aunt Polly, "that she was Able Jones' daughter, and what put it into her head to tack that Fitz on to the hither end of her name I can't imagine, and what seems stranger still is, that the Lawsons should bear her out in her foolish pretensions. But never mind—I shall not mention a word of what you have told me, till after the party

This resolution was very generous and commendable in Aunt Polly, but it proved to be of no avail. Everybody in the room appeared by this time to know as much about it as she did, and what was even more remarkable, nearly all present, according to their own assertions, had been pretty sure from the first, that Isabel Wilton was a real lady, and "the other one,"
